

How to Import Products to Shopify

Contents:

1. Preparations;
2. Notes;
3. How to import single products to Shopify?
4. How to import in bulks?

1.Preparations:

A. Prepare Shopify online store information;

B. Please go to Shopify App store, search and add the app'SaleYee Dropshipping' ([click here to access](#)>>)

The screenshot shows the Shopify App Store interface for the 'SaleYee Dropshipping' app. The app is listed as 'Sourcing and selling products' and is available for free. A diagram illustrates the dropshipping process: Suppliers provide products to the SaleYee platform, which then sells them to Sellers. The platform handles inventory preparation in warehouses and dropshipping. Key features include Product Sourcing Made Easy, Advanced Automation, and Fast Order Fulfillment.

Product Sourcing Made Easy
Easy to find winning products from our 30,000+ quality and profitable SKUs, which are strictly selected from reliable factories.

Advanced Automation
Easily import products to your Shopify store. Synchronize inventory, orders, and tracking number with SaleYee

Fast Order Fulfillment
Deliver your orders within 2 - 8 days from the nearest local warehouse in the US, UK, and EU.

C. Go to 'My SaleYee' - 'Third-Party Platform' - 'Platform Authorization', and finish the authorization([please click here](#) to view the guide for Shopify account authorization>>);

D. Importing process:

Select the product and click "Import" - Fill in the product information in order (Product > Variation > Description > Picture) - Confirm and Click "Import Now" - Check the progress ("List of Imported Products" in Product Management) - "Imported" means completed.

2. Notes:

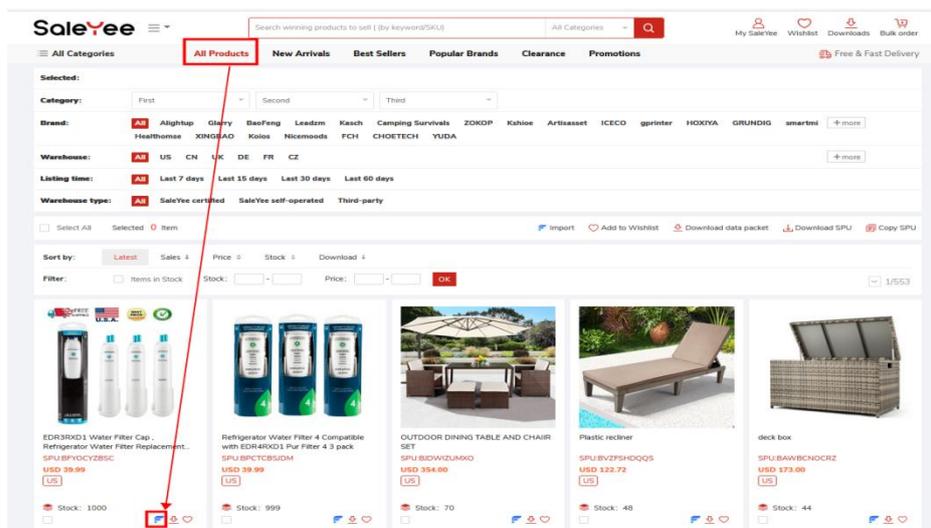

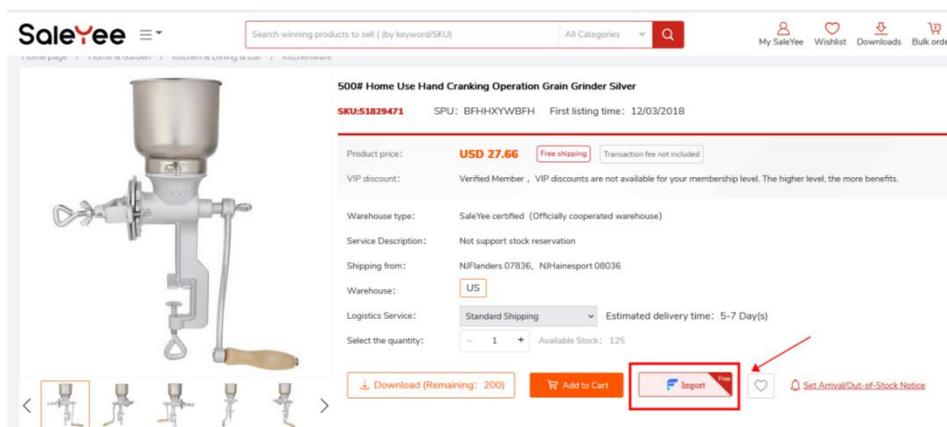

A. It is recommended to use Google Chrome for importing products. Other browsers may take too long to load and affect the process;

B. Pay attention if the currency of your Shopify store is inconsistent with that of SaleYee warehouse. SaleYee system will not make automatic conversion of commodity currencies. Please make currency exchange manually if needed.

3. How to import single products to Shopify?

(1) Choose the products - [Import];

When you import the products, please choose the corresponding warehouse (If your store sales region is FR, please select the FR warehouse.) and click [Import] button.

(2) Fill in the information(Product > Variants > Description > Images)

A. Fill in the details of the product: Confirming store accounts, changing image, Vendor, Warehouse;

The screenshot shows the 'Import products' interface in SaleYee. The left sidebar contains filters for Category, Brand, Warehouse, and Listing time. The main area displays a list of products, including 'EDR3RXD1 Water Filter Cap...'. The right sidebar shows the 'Import products' form with the following fields highlighted in red:

- Platform account: saleyee2020
- Product status: Active
- Title: EDR3RXD1 Water Filter Cap... Refrigerator Water Filter Replacement For EDR3RXD1 Filter 3 4396841 469030 4396710 P2RFWS12.46-9063
- Vendor: saleyee2020
- Warehouse: US

B. Fill in the variant details: Cost, published price, original price, published inventory;

The screenshot shows the 'Import products' interface with the 'Variants (1/1)' tab selected. A red box highlights the 'Variants (1/1)' tab and a table with the following columns: Cost, Price, Compare at price, and Inventory. A red arrow points to a warning message: 'Your Shopify store currency is: EUR, inconsistent with the cost price currency of the product in the current warehouse. The system will not automatically convert the price, please convert it yourself.'

Import	Saleyee SKU	Cost	* Price	Compare at price	Inventory on SaleYee	*Inventory
<input checked="" type="checkbox"/>	02126291	USD 39.99	39.99		1000	1000

C. Description:

Import products ✕

Currently only support importing to Shopify
Please note: CN warehouse is China shipping to the US, other warehouses are local warehouses and can be shipped to the local area.

4. How to import in bulks?

(1) Choose the products - [Import];

products list page - check the products - click the Import;

Please Note: In order to reduce the problem of Import products, **it is recommended that you select products from the same warehouse.**

The screenshot displays the SaleYee import interface. At the top, there is a search bar and navigation tabs. The 'Selected' section shows 'Warehouse: UK' highlighted with a red box. Below this, there are filters for Category, Brand, Listing time, and Warehouse type. A red circle highlights the 'Import' button. The main area shows a grid of products with their images, titles, prices, and stock levels. A red arrow points from the 'Import' button to the 'Import' icon on the product cards. On the right side, there is a form for configuring import settings, including Platform account, Product status, Tags, Collections, Warehouse, and Price. A red warning message states: 'Your Shopify store currency is: EUR, inconsistent with the cost price currency of the product in the current warehouse. The system will not automatically convert the price, please modify it in your Shopify store.' At the bottom right, there are 'Import now' and 'Cancel import' buttons.

(2) Fill in the required information;

Please note: Titles, images and descriptions cannot be set during bulk importing, please go to Shopify store dashboard to modify them after the products are imported.
